FIRE RESISTANT CONTAINER

SPECIFICALLY DESIGNED FOR LITHIUM ION BATTERIES

The Fire Resistant Container (FRC) is an innovative product that protects potentially flammable goods against the threat of fire. The exceptional insulation properties are achieved by the use of a unique combination of technical textiles which prevent the propagation of both internal and external fires.

The Fire Resistant Container provides the perfect solution for transporting and storing potentially combustible products, such as batteries, fireworks and other flammable chemicals.

Make an enquiry to discuss your lithium battery fire protection needs today.
